# How to add Content to Pages in Haiku

Now that you have your pages set-up we are ready to begin adding content! There are several different types of content we can add.
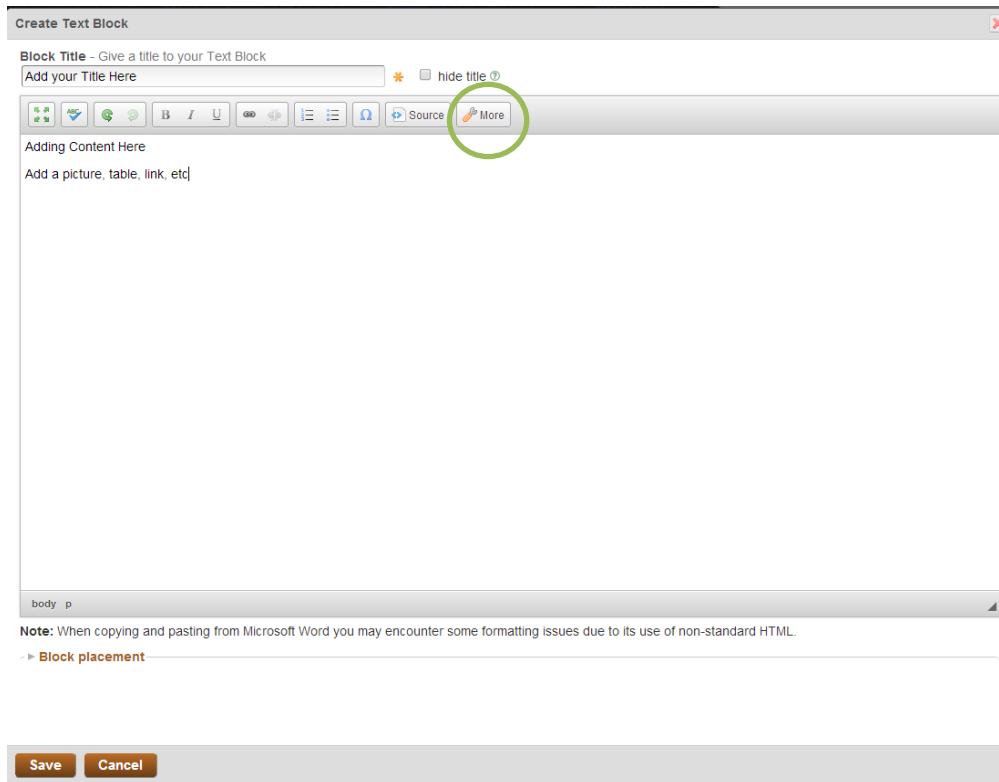

1. On the **Welcome/Introduction page**, click **Add Content Block** at the TOP

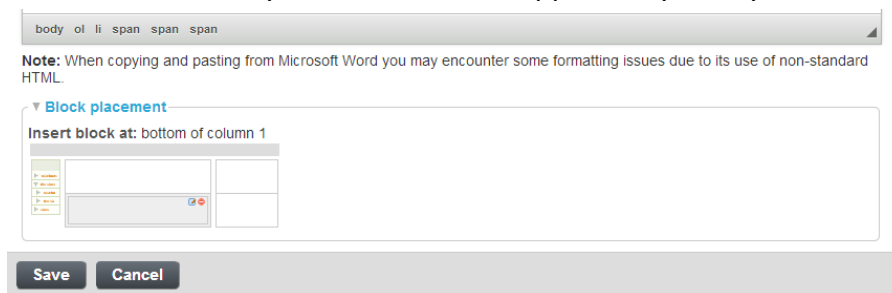

2. You will be given a variety of options to choose from. Let's see what these options are. By **hovering over any of the buttons a description will pop-up** on the right side of the dialogue box.

3. Let's practice with a few of these. First let's try **One Page Text**.
4. Options pop-up allowing you to add what content you would like inside of this box

5. Add Content and apply style. To see more style options click the **More** button
    a. Try adding: an image, text, link, and tables
    b. Apply style or settings
6. Last, choose where you would like it to appear on your layout under **Block Placement**

7. Now, let's try embedding! Click the **Add Content Block Again**.
8. **Choose Embed the Web. This is a great feature that will allow you to pull web based activities right into your Haiku environment.**
9. For example, let's try **Quizlet**. Maybe you want to provide your students with Flash Cards to study for a quiz or test. If you have a Quizlet account you can make your own flash cards and then embed the documents in.
10. First, **I log into my Quizlet Account** and create my flash cards. Next, I need **the embedded code**.
11. Now that I have my code I can add this to Haiku. First type in the name of the website you are using, example Quizlet.

a. Click **Read More** and then I'm ready to paste

12. Paste in your code

Suggest

Q Quizlet   ◀ Back to Search Results

About   Paste

Paste the Quizlet "embed" code below.

```
<iframe src="https://quizlet.com/29842568/flashcards/embedv2" height="410"
width="100%" style="border:0;"></iframe>
```

                                                                    Next

If you don't have the "embed" code in your clipboard yet you can find it by
visiting the Quizlet website.

Insert block at: top of column 1

Save   **Cancel**

14. Once all of your content is on your pages you are ready to publish your pages and make your class active.

15. To **Publish Pages**, click the ⚞ next to the pages you would like to be seen.
    a. When you click this icon Haiku will ask when you would like to publish the page. Choose any of the options
        i. ***Note pages can be published and unpublished at any time**
    b. Pages that are published will display this symbol ⚞

16. Now that your pages are viewable your site must be viewable. To do this we will activate your page by clicking the **Manage Class** button at the top right
    a. Click **Make Active**
    b. You can choose for it to be active forever or unit a date
        i. **Note classes can be deactivated at anytime
    c. If you leave the message below checked your site will not be available online

    ☑ Only people in the class roster can view this class
